Amino Acids and derivatives

- Serine
- Arginine
- Asparagine
- Glutamine
- L-alanine
- Cysteine
- Tryptophan
- Glutamate
- Isoleucine
- Leucine
- Methionine
- Phenylalanine
Amino Acids and derivatives

- Threonine
- Valine
- Proline
- Taurine
- Beta-alanine
- Tyrosine
- Aspartate
- Citrulline
- Glutathione oxidized
- Carnitine

Comparison between Alsen and Norm conditions.
Supplemental Figure 3. Relative concentrations of all quantified metabolites for all NMR spectra shown as average values and standard deviations for treatments and CO₂ concentrations. Red bars indicated Aksen and blue bars indicate Norm.
